MODUSYSTEM PRICE LIST*

Our main products

MODU-TOOL

A hand terminal which enables you to read out log files, change and download parameters and check I/O-status of multiple elevator brands. Supports Orona, Otis, Kone, Thyssen and Sch. You will also be able to read out Thyssen MCI and unlock the menu from Sch. Includes the Modu-tool, config cable, Modu-can, Modu-rs, power supply and a Modusystem USB for updates. €2619

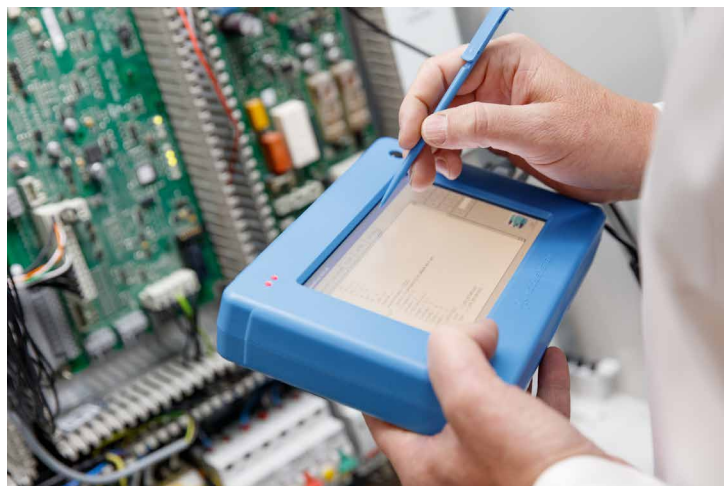

MODU-VIEW

A monitoring solution which brings the elevator data on the internet for you. Analyse fault history to prevent lift break downs and read the current elevator status remotely. €399

MODUSYSTEM TRAINING

Follow courses in learning the tips and tricks of the Modu-tool €375 (5 à 6 hours) or in learning to become an expert in a certain elevator brand €575 (5 à 6 hours) or multiple brands €1900 (5 sessions). Requires a minimum of 2 persons. Prices are per person.

MODUSYSTEM

MODUSYSTEM PRICE LIST

4765 RE Zevenbergschen Hoek

GREEN CONFIG CABLE

This is the green cable from the config cable, only then separated and 4 times longer. Designed for more user comfort. Optional for the Modu-tool. €59 incl. shipping costs

MODUSYSTEM USB

A small usb with 512MB designed for putting updates on the Modu-tool. Contains manuals and instruction videos about the Modu-tool too. Also delivered with the Modu-tool. €5

MODU-CONNECT

This is an add-on for the Modu-tool. When a service engineer has difficulties solving a problem, the Modu-connect is an easy way to provide remote assistance. That means an expert no longer needs to be at the site to assist the service engineer but can provide help from anywhere. €279
